ABOUT NON-RESETTABLE SWITCHES

Reliable Circuit Control with Premium Marine-Grade Durability

Bocatech Non-Resettable Switches deliver reliable control of electrical circuits while offering the premium appearance and durability that define the Bocatech brand. Ideal for systems protected by external fuses or circuit breakers, these switches provide smooth operation, long service life, and dependable performance in demanding applications.

Constructed from corrosion-resistant 316 stainless steel, Bocatech Non-Resettable Switches are designed to withstand harsh marine environments while complementing today's modern helm designs. Available in multiple LED colors and switch functions, they are trusted by OEM manufacturers, boat builders, and custom installers worldwide.
